

## **Chairman's Report – October**

### **Speedwatch**

- We have lost our new volunteer. However, as one leaves another applies. That will still only make 8 members though, not nearly enough.
- Peter Joyce, Hayley and the Chairman will meet with the local police to discuss the data more fully to seek further support toward our argument with NCC Highways for additional traffic calming measures.

### **Highways**

- Highways are ready to start the installation of the Village Gateways. I have asked for the cost of 30mph roundels to be painted on the road between the gateways. See Item. 13 on the agenda.
- I have asked Cllr. Barron to act as Liaison officer with Highways.

### **Road Closures**

Confusion has reigned recently in Long Street & Hingham Road.

The Chairman & Cllr Barron (?) will meet with Harvey Woodyatt, Network Co-ordinator (South) Highways, Transport & Waste to discuss how similar periods of chaos can be avoided in the future.

### **Police**

- Hayley will be asking you to provide her with topics you wish her to raise at the next SNAP meeting. Hayley will discuss the recent break-in in Church Street.

### **Defibrillator**

- The defibrillator is back in situ. A new battery was purchased by the Chairman.
