

Chairman's Report – May 2023

Speedwatch

During a one-hour session in the Hingham Road, earlier this week, the team recorded 25 vehicles speeding; several were doing over 40mph. We still need more volunteers.

Riparian Law

The leak in Long Street has recurred but the cause has been identified. Hopefully the resident, to whom the chairman has written again, will fix it soon.

Roundabout Planting Scheme

10 volunteers started the task of rock / stone removal last Saturday. This needs to be done to allow a rotovator to be used to prepare the land for planting, which will occur after the summer.

Pond in Church Street

The chairman spoke at length to the owner of the land upon which the pond was located. There is an item on the agenda to allow a discussion.

HGVs ignoring the weight restriction

The chairman has written to two serial culprit companies and will write to any companies identified by villagers.
