

## **Chairman's Report – September 2023**

### **West Carr & Wroo Road; Long Street & Swangey Lane**

I wrote to the residents, to remind them of the change, for which they voted, albeit several years ago. I invited them to the PC meeting in September, which didn't happen. However, two residents have been in touch with me and I have dealt with their issues. Also, three residents, from this area, have expressed an interest in joining the PC. We will consider their applications, when they attend a PC meeting.

### **Public Transport**

I have published the new bus timetables on the three village Facebook community pages. The new services have been welcomed; although some concerns have been expressed about the safety of school children travelling to school on a public bus.

The apparent loss of the Flexibus has upset a few residents. It was not supposed to disappear completely and I am investigating the issue.

### **Speedwatch**

This month we have been monitoring Long Street at Broadmarsh Farm (No81). I'm glad to say the number of speeding vehicles has been low. We'll be out again next month but we still need more volunteers.

### **Pond in Church Street**

We are waiting for information from Breckland Council as to how they plan to resolve the issue; that being the unauthorised filling of the pond in front of Lakeview (aka the fisheries) in Church Street.

### **Planting of the Roundabout**

After the difficulties we had in early summer, we plan to kick-off the project again in October. We'll discuss the plan at this PC meeting.
